

# THE ROAD TRANSPORT MANAGEMENT SYSTEM (RTMS)

GRAIN LOGISTICS WORKSHOP  
11 FEBRUARY 2015

## AGENDA

This presentation will cover:

- What is RTMS?
- Barloworld Transport Overview
- RTMS Certification
- Post RTMS Review
- Smart Trucks
- The way forward

RTMS is an industry-led, government-supported, voluntary, self-regulation scheme that encourages consignees, consignors and road transport operators to implement a management system (a set of standards) with outcomes that contribute to preserving road infrastructure, improving road safety and increasing productivity.

# DIVERSIFIED DIVISIONS

## GENERAL FREIGHT DIVISION

LONG HAUL

CROSS-BORDER

## SPECIALISED DIVISION

## FUEL & CHEMICAL DIVISION

## DEDICATED DIVISION

## • RTMS Certification

- Barloworld Transport currently has 33 depots in SA.
- 28 depots are RTMS certified. (895 vehicles)
- RTMS is a minimum requirement in all operations.
- Audit Findings between 2011 and 2013 has reduced by **61%**.
- In 2014 RTMS certification was obtained by 8 new depots/contracts

Contract/Depot	2011	2012	2013
MF Paarl	2	0	0
MF PE	1	0	0
MF Randfontein		3	1
MF Delmas		2	2
MF PMB		3	1

## • Post RTMS Review

### • Internal and External benefits:

– Stringent adherence to:

- Legal payloads
- Speeding
- Driving hours
- Maintenance practices
- Documentation Control
- Training and education
- Risk assessment

– RTMS is a strategic advantage when you are selling sustainable transport solutions.

- Formal framework for all existing operational and technical protocols.
- Contracts have been awarded to BWT because of good internal risk and operational protocols and RTMS helped to bring this together.
- Time has shown that getting RTMS certification is sometimes easier than living RTMS.

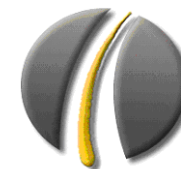

## • Smart Truck (PBS) Demonstration Project

- Barloworld Transport is currently working on a number of PBS projects.
  - 20 x PBS vehicles running within BWT.
  - Operation approval has been received for a further 48 x PBS combinations.

### The key advantages of the PBS Program:

- Reduced road wear
- Improved stability (Safety)
- Improved payload efficiencies
- Reduced road congestion
- Reduced CO2 emissions per ton of payload moved

Road Transport Management System

Driver Wellness • Safety • Loading • Productivity

## • The way forward...

- RTMS standard (SANS 1395) will be published in Dec 2015.
- SANS 1395 is closely aligned to ISO 39001.
- RTMS auditors will be appointed and managed by SANAS under SANS 17021. (This process will be complete by the end of March 2015)
- 143 RTMS accredited companies / depots.
- Currently 7230 vehicles fall under RTMS (In 2007 when RTMS started 74 vehicles were accredited).
